SHANKARLAL KHANDELWAL ARTS, SCIENCE & COMMERCE COLLEGE, AKOLA

Run by Shikshan Prasark Mandal, Akola

To,

The Principal / Head / Professionals / Industrialists / Researchers / Academicians,

Dear Sir / Madam,

It gives us immense delight to inform you that the Department of Sociology & I.Q.A.C. is organizing a virtual International Interdisciplinary Conference on "Social Justice and Communal Harmony in South Asia during The Last Five Decades" on 16th March 2022. We are pleased to invite you to register, participate, contribute high deliberation and make the event a productive learning experience.

About Conference:

South Asia & India have rich diversity in various fields such as religion, language, culture, tradition and geographical territory. The frames of the constitution have carefully underlined the need for communal harmony and ensuring equal rights. It is the challenge laid before us to maintain this harmony by accepting and tolerating one another despite of differences. Social Justice means equal rights and equitable opportunities for all in terms of wealth, education and work within a society. Thus social justice & communal harmony are the two concepts with which the human life becomes peaceful. Today social justice has shifted towards a stronger emphasis on human rights, diversity, participation, equity & access to resources. We are facing various internal conflicts all over the world. A threat to communal harmony is the activity of the antisocial elements. The recent crisis in various countries in Asia is posing major threats to humanity. The terrorist activities in Asia are a challenge to the harmony preserved and cherished by many on various levels.

United Nations proclaims: "All human beings are born free and equal in dignity and rights. They are endowed with reason and conscience and should act towards one another in a spirit of brotherhood". There is also an urgent need to strengthen the spirit of nationalism amongst citizens of the country. We have to properly address the rising intolerance in the society for maintaining peace. The conference aims at the role of an individual in the building of a peaceful nation and maintenance of communal harmony across the world.

Expected Outcomes of the conference:

- 1) To create awareness for preserving and nurturing communal harmony.
- 2) To create a better understanding to resolve differences and impart the message of peace.
